L. P. Fisher Newspaper Advertising Agent,
21 Merchant's Exchange, San Francisco, is our
authorized agent. This paper is kept on file in
his office.

Sortition, the murderer of his half-breed babe, has been sentenced to be hung in Phenix on the last Friday in July.

The fight for office will be on within a month and we rather expect to see more men out for office than for many years past.

Cleveland has changed his policy in relation to Hawaiian affairs and will now aid, as far as possible, the establishment of a republican government.

W. H. Cureton is the populist nominee for district attorney of Fresno county. Cureton is not a bad sort of a fellow and we hope he will be elected.

Chris Buckley and his lamb-like following is now fast in the republican fold. San Francisco democrats are to be congratulated on Buckley's change of heart.

Quite a large sized excitement was occasioned the other day in Needles over the election of school trustees. J. F. Downey and A. H. Stearns were elected.

John Tinker, a Prescott typo, has received a baby as a donation. The donor can have the property again by calling for same as John is already well supplied in this direction.

Frances J. Heney, attorney general of Arizona, and Jerry Millay had a fight in the courthouse in Phenix the other day from which Col. Millay emerged in a dazed and battered condition.

John J. Gosper, who at one time acted as Governor of Arizona, is a candidate for Congress on the republican ticket in one of the Southern California districts. Gosper is a rustler and may yet there.

It is claimed that the A. P. A's have captured a majority of the delegates to the republican convention in California. The A. P. A. is a poor body to tie to and the republicans will be swamped by it.

The suit instituted by the territory against ex-treasurer Christy has been decided in favor of the territory. Under the decision Christy will have to pay back into the treasury some \$17,000 illegally paid out.

Even the Cincinnati Enquirer is denouncing the goldbugs for their unrelenting fight on silver. In another column we publish a caustic editorial on the many devices used by the money sharks to keep silver in the background.

Our hopes were strong that the democrats and populists would carry the Oregon legislature and elect Gov. Penoyer to the United States Senate to succeed Dolph, but it now looks as though Dolph would be returned to again assist his gold bug compatriots.

It is something wonderful what the repeal of the McKinley tariff law has caused in this country. Since the matter has been under discussion in the Senate no rain has fallen in northern Arizona, and the wind has blown at the rate of thirty miles an hour ever day.

Kansas' new ballot law requires the voting booths to be so constructed as to exhibit the lower limbs as high as the knee to the gaze of outsiders. This is a scheme of the dress reformers to force women suffragists to wear pants that can be exposed as high as the knee.

We publish elsewhere an article from the Salt Lake Herald giving the standing of the republicans in Congress on every important silver measure for the last twenty years. The fact is also given that the republican is strictly an eastern party and therefore can never be rallied to the support of silver. In the west and south, the agricultural empire of the United States, the people, whether democratic, republican or populist, are for the free coinage of silver. Now, why cannot our members of Congress stand together as a unit and carry this important legislation through?

Mrs. L. C. Hughes, president of the W. O. T. U. in Arizona, is doing noble work for the cause of temperance.

The republicans carried Oregon by big majorities last Tuesday. On account of the excess of water the prohibitionists cast a light vote.

There are two hundred and forty seven counties in Texas. How it must test the endurance of candidates for state offices to canvass every county in the state.

The Phenix Gazette and Herald are doing splendid work for the Salt River valley. Every issue of these newspapers is brimful of information of the resources of that wonderful region.

The Republicans of Ohio adopted a platform favoring bi-metallism with the necessary safeguards that England will allow. We are strongly of the opinion that Ohio democrats will follow suit.

Flagstaff is going to be one of the best and most progressive towns on the Pacific coast this summer. There are many business men of sterling quality located in the Gate City who are putting forth every effort to make their town the best in the whole southwest.

N. O. Murphy has the congressional bee buzzing in his ear and has been working around among his friends to have their hands ready to receive him when he gives the word. Nathan, old boy; your work for Harrison will place a cloud on your title to office in silvery Arizona.

John Logan and R. E. L. Robinson, a well-known newspaper correspondent, who some time ago went down the Colorado river from Yuma to the Gulf of California in the sloop Examiner, were murdered by Indians on the island of Tiburon. The other two members of the party escaped and arrived safely at Guaymas.

Kim Wing, a son of the flowery Kingdom, who has been in Mexico for many years and who amassed a fortune of several million dollars, has sent an agent to China to bring 200,000 coolies to Mexico to work on the coffee and rice plantations. The Mexican government will soon be in the hands of China, as their unskilled labor can never compete against the yellow skinned horde.

Mark Smith shows his true Americanism in the manly, straightforward letter to M. D. Scribner, which we publish in another part of this paper. Mark believes that international bimetallism is a farce and that the only way to obtain free coinage of silver is for the United States to open her mints to silver on a parity with gold and every country in the world will have to follow suit.

California democrats will endorse free coinage of silver. Their action will be followed by every convention west of the Mississippi and south of Mason and Dixon line. In this respect we expect nothing from the northeastern states. In every western state where republicans or populists rule free coinage men are sure to be sent to congress. Let only tried and true men be elected. Partyism cuts no figure.

The populists are crying down, or rather attempting to cry down, Silver Dick Bland for the presidency. Dick Bland has done more for the cause of silver than any man in the United States and all the yapping that may be done by rival forces will rise as lightly from him as a summer mist. We understand, or are given to understand, that we cannot expect silver legislation unless through the populist party. Now this is to be taken with a very large and juicy grain of salt. Review some of the acts of the populist leaders and you can see clear through the wooly covering. H. E. Taubeneck, chairman of the populist national committee, was a member of the Illinois legislature, and it was through his untiring efforts that Palmer was elected to the United States Senate. Without the vote of Taubeneck and a populist colleague Palmer could never have been elected. No more pronounced gold bug has ever been in Congress than Senator Palmer. Cannon, of California, was nominated by the populists and endorsed by democrats and he proved a willing tool of the gold bugs. Doble of Pennsylvania, is another populist who has proven a traitor to the trust reposed in him. Cannon and Doble, of course, cannot explain their conduct to their constituents and will drop out of sight. This is not the case with Taubeneck. He is rewarded with the leadership of his party. By following his leadership his actions in the past must necessarily be approved. Few there are who can approve them.

For Free Coinage.

As this is the season of the year when the balmy breeze of June blooms into full flower the budding candidate, and having no friends who will take upon themselves the important duty of championing office seekers, I respectfully announce myself as a candidate for the territorial council at the ensuing election. My platform may have considerable oneness about it, but it is the only issue that can appeal responsively to the hearts of our people—the free and unlimited coinage of silver.

ANSON H. SMITH.

Kingman, June 8, 1894.

At the Hotel Burke may be seen an exhibit of very rich gold ore from the Jersey Lily mine. To say that the ores of a mine run from \$170 to \$1,000 per ton, and that the average of the pay streak is \$234, sounds like a gross exaggeration, but this is nevertheless the truth in the case of the Jersey Lily. Not only is the ore rich, but the pay streak is of good size and regular, showing an average width of one foot throughout the entire length of the upper level, which is over fifty feet. Another level is being driven south at a depth of sixty feet for the purpose of tapping the ore chute exposed in the upper level, but has not yet reached it, the chute dipping to the south and away from the shaft. Already there are many thousand dollars' worth of this rich ore exposed, and development work will be rapidly pushed. A whim has just been completed, and double shifts will be worked in both levels. Today the packing of a carload of ore to Prescott for shipment will be finished—Courier.

While in Topeka last March, E. T. Barber, a prominent newspaper man of La Cygne, Kan., was taken with cholera morbus very severely. The night clerk at the hotel where he was stopping happened to have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and gave him three doses which relieved him and he thinks saved his life. Every family should keep this remedy in their home at all times. No one can tell how soon it may be needed. It costs but a trifle and may be the means of saving much suffering and perhaps the life of some member of the family. 25 and 50 cent bottles for sale by

H. H. WATKINS,

Weak, Tired, Nervous
Pains in the Stomach—Nine
Years of Suffering
How It All Ended.

"C. I. Hood & Co., Lowell, Mass.:
"For 9 years I have had a pain in my stomach besides nervousness, weak spells and constant tired feeling. For the first five years I did not doctor much but gradually growing worse, came to this state for the benefit of my health. I was treated by several good physicians but continued to grow worse. For the last year I have been confined to my bed nearly all the time. I became so weak I could stand but a few minutes at a time. I could eat but a little and I fell off in weight from

130 Pounds to 80.

About four months ago I commenced taking Hood's Sarsaparilla, and from that time I have steadily improved in health and gained in

HOOD'S Sarsaparilla CURES

strength. I also had a bunch on my neck as big as a hen's egg which bothered me to breathe. Since taking Hood's Sarsaparilla that has disappeared. During the past year my husband's body became bloated and he was unable to work. He took two bottles of Hood's Sarsaparilla and is feeling as well as ever." Mrs. ANGIE THOMAS, Sodaville, Oregon.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.
